

## WHAT WE DO

Independent cybersecurity advisory for SMEs in the UK and Saudi Arabia. We assess, advise and guide – without selling products or earning commissions.

## OUR REGIONS

- United Kingdom
- Saudi Arabia & GCC

## COMPLIANCE FRAMEWORKS

- NCA ECC (Saudi Arabia)
- SAMA CSF (Financial)
- Saudi PDPL
- Cyber Essentials (UK)
- ISO 27001 alignment
- PCI DSS advisory

## OUR COMMITMENTS

- No vendor commissions – ever
- No product sales or reselling
- Fixed-fee engagements
- Written findings, always
- Plain English, not jargon

## COMPANY OVERVIEW

# Advisory First. Technology Second.

Nexasecure Advisory Ltd is an independent cybersecurity advisory practice registered in England and Wales. We work with small and mid-sized businesses across the United Kingdom and Saudi Arabia to help them understand their real security risks – and make confident, cost-effective decisions without being sold to.

Unlike IT support companies and managed service providers, Nexasecure has no products to sell, no vendor partnerships, and no commercial incentive beyond giving accurate advice. Every engagement is fixed-fee, every finding is documented in writing, and every recommendation is made independently.

## Our Services

### Security Health Check

Our flagship service for businesses that want a clear, independent picture of their current security posture. We review six core domains – network security, endpoint protection, identity and access, cloud and data, monitoring, and

### Full Security Audit

A comprehensive deep-dive assessment for organisations with more complex environments or regulatory compliance requirements. Covers all security domains in full, includes compliance gap mapping against relevant frameworks (NCA ECC,

### Virtual CISO Retainer

Ongoing monthly advisory for businesses that need a trusted security function without the cost of a full-time hire. Your dedicated advisor is available for strategic guidance, incident triage, vendor review, board reporting, and

### Dark Web Exposure Monitoring

A bolt-on service that checks whether your organisation's credentials, email addresses, or data have appeared in known breach databases and dark web sources. Delivered as a written findings report. Available as a standalone

## WHY NEXASECURE

# The Independent Difference.

Most businesses receive their security advice from the same company that sells them security products – creating a fundamental conflict of interest. Nexasecure exists to give business owners a genuinely independent second opinion: advice driven by your risk, not by margin.

## What Makes Us Different

### Genuinely Vendor-Neutral

We have no vendor partnerships and earn no commissions. Every recommendation is made on the basis of

### Written Findings, Always

Every engagement produces a written report you own. Findings are documented, prioritised, and explained in

### Both Sides of the Table

Our advisory team has spent years on both sides – advising clients and working within the vendor and reseller community. We understand how the

### Fixed Fees, No Surprises

All engagements are scoped and priced in advance. No day-rate billing, no scope creep charges, no ongoing licence fees attached to our advice.

### UK & Saudi Arabia Expertise

We operate across both regions and understand the compliance landscape in each – from UK Cyber Essentials and GDPR to Saudi NCA ECC, SAMA CSF, and

### SME-Focused

Our services are designed for businesses with 20 to 500 users – organisations that have real security exposure but don't have the budget or need for a full

## Get Started – Free Discovery Call

We offer a free 30-minute discovery call to any organisation that wants an honest picture of where they stand. No commitment, no sales pitch, no obligation. If there's nothing to address, we'll tell you that too.
